PROFESSIONAL SUMMARY

Frontend Developer with 2 years of experience in building scalable and responsive web applications. Specializes in delivering high-performance solutions through effective **state management, component-based architecture**, and **API integration**. Proven track record of **debugging, testing, and optimizing** applications to enhance user experience and ensure maintainability. Experienced in collaborating with cross-functional teams to deliver seamless and business-aligned technical solutions. Passionate about staying current with modern frontend development practices to drive application scalability and usability.

SKILLS

- **Tech Stacks:** REACT.JS, NEXT.JS, JAVASCRIPT, HTML, CSS, NODE.JS, EXPRESS.JS, MONGODB
- **Libraries:** Material-UI (MUI), Bootstrap, Chakra UI, Tailwind CSS, Redux
- **Tools:** Git, Github, VsCode, Npm, Yarn, Postman
- **Other Skills:** Debugging, Troubleshooting, Problem Solving, API Integration, API Development
- **Soft Skills:** Adaptive Learning, Time Management, Attention To Detail, Team Work

WORK EXPERIENCE

Twinleaves Retail Ecommerce | Associate Software Engineer   April 2023 - Present

- **Developed and optimized Inventory Screens** for a Retail Management web application using React.js, improving performance and reducing load times by 20%, resulting in a smoother user experience.
- **Collaborated with cross-functional teams**, including designers and backend developers, to integrate new features, leading to a 15% improvement in delivery efficiency.
- **Created custom email and PDF templates** from scratch, which improved user onboarding efficiency by 25% and streamlined internal communications.
- **Built reusable components** using **React.js**, reducing development time for new features by 30% and enhancing code maintainability.
- **Tested, debugged, and resolved software bugs**, increasing application stability and reducing user-reported issues by 40%.
- **Conducted peer code reviews**, ensuring adherence to coding standards and improving codebase consistency, resulting in a 10% reduction in production issues.
- **Reviewed and analyzed the React Native codebase** of the Android Grocery app to create a similar B2C Grocery web application, ensuring seamless user experience across platforms.
- **Improved user efficiency by 30%** through optimized **filter functionality**, **search capabilities**, and **data management features**, significantly enhancing the overall user interface and satisfaction.

PROJECTS

Zoomcar: Replica of an online self-drive car rental platform.
- **Tech Stack:** REACT.JS, HTML, CSS, NODE.JS, EXPRESS.JS, MONGODB, REDUX
- **Features:** Sign-In, Sign-Up, Search Functionality, Filter Functionality, Responsive Design, Booking and Cancellation
